Fixed-constant SRC-KL refinement | parameter_v3_original_validation
Dots follow parameter order, not outcome rank; bars show 1 MCSE. Blue beta=32, orange beta=128.
f17 | T=12000/14000/16000
original horizon values; arm provenance retained in config
a=8192, c=0.5, beta=32
a=8192, c=1, beta=32
